### **DETAILED ACTION**

1. This action is responsive to communications: Amendment, filed on 9/21/2006.

This action is non-final.

2. Claims 1-6, 13-19, 25-31 and 37-53 are pending in this application. Claims 1, 3, 43, 45, 46 and 48-53 are independent claims.
3. This application claims foreign priority dated 11/10/2000.
4. The present title of the invention is "Image display control unit, image display control method, image displaying apparatus, and image display control program recorded computer-readable recording medium" as filed originally.

### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-6, 13-19, 25-31 and 37-53 rejected under 35 U.S.C. 112, first paragraph, because the best mode contemplated by the inventor has not been disclosed. Evidence of concealment of the best mode is based upon the independent claims limitations claim a storing section stores the original image, then the display control section confirms the original image is stored. If the image is stored, then there is no need for a redundant step of confirming it.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6, 13-19, 25-31 and 37-53 recites the limitation "a display control section confirming whether said part of the original image is stored in said first storing section when said part of the original image is to be displayed" in independent claims. There is insufficient antecedent basis for this limitation in the claim.

### ***Response to Arguments***

7. Applicant's arguments with respect to claims 1-6, 13-19, 25-31 and 37-53 have been considered but are moot in view of the new ground(s) of rejection.
